

Clark Forklift

Clark Forklift Forklift Training - Presently, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular items built for 20 distinctive models of forklifts and automated equipment. Your regional Clark Supplier is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a uncompromising objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Resource Efficient Manufacturing

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this method is particularly economical and enables minimal use of resources. Developed to guarantee maximum efficiency, this system is designed to discover and acknowledge the most effective methods for production plant management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engineering

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their products while minimizing costs. The contemporary value engineering agenda combines progressive product improvement and offers improved client support and service within the industry.
